OSHA Regulatory Status This material is considered hazardous by the OSHA Hazard Communication Standard (29

CFR 1910.1200). Safety information is given for exposure to the reagent as sold and

considers exposure to the chemical if user has direct eye and skin contact.

Potential Health Effects

Principle Routes of Exposure Inhalation, skin contact, and ingestion

**Acute Toxicity** 

**Eyes** Corrosive to the eyes and may cause severe damage including blindness.

**Skin** Corrosive. Contact with skin causes irritation to severe burns. Can cause redness, pain,

and severe skin burns. Harmful if absorbed through skin.

**Inhalation** Poison - may be fatal if inhaled. Inhalation of corrosive mist may cause coughing, choking,

headache, dizziness, and weakness for several hours. Pulmonary edema may occur with tightness in the chest, shortness of breath, bluish skin, decreased blood pressure, and increased heart rate. Depending on exposure, the effects from inhalation of corrosive mists

can vary from mild irritation to serious damage to respiratory tract.

Ingestion Toxic if swallowed. Corrosive. Can cause immediate pain and burning in the mouth, throat,

esphagus and GI tract. May cause nausea, vomiting, and diarrhea, and in severe cases

death. Estimated lethal dose: ~5 grams.

**Chronic Effects** Prolonged exposure may cause chronic effects.

Main Symptoms Prolonged contact has a destructive effect on tissue.

Aggravated Medical Conditions Hypersensitivity may occur in those with preexisting skin disorders. Respiratory disorders.

Preexisting eye disorders.

Eye Contact Immediately flush eyes with gentle stream of water for at least 15 minutes, occasionally

lifting upper and lower eyelids. Call a physician immediately.

Skin Contact Wash off immediately with soap and plenty of water for at least 15 minutes while removing

all contaminated clothing and shoes. Remove and wash contaminated clothing before re-

use. Immediate medical attention is required.

**Inhalation** Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial

respiration and contact emergency personnel. Call a physician immediately.

Ingestion DO NOT INDUCE VOMITING. Drink large quantity of water. Immediate medical attention is

required. Never give anything by mouth to an unconscious person.

mouth method if victim ingested or inhaled the substance; induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical

device.
