

Fleming College

ARTICULATION AGREEMENT:

CONSERVATION BIOLOGY PATHWAY

BETWEEN

**THE SIR SANDFORD FLEMING COLLEGE
OF APPLIED ARTS AND TECHNOLOGY**

AND

TRENT UNIVERSITY

ORIGINAL AGREEMENT DATE: APRIL, 2021

The Sir Sandford Fleming College of Applied Arts and Technology's

Ontario College Diploma in Conservation Biology

to

Trent University's

Bachelor of Science (Honours) in Conservation Biology

Bachelor of Science (Honours) in Biology, with the option to pursue a Specialization in Conservation Biology

This agreement establishes the principles, guidelines and procedures governing admission and assessment of selected qualified students to enter Trent University on an advanced standing basis, subsequent to the successful completion of the Ontario College Diploma in Conservation Biology at the Sir Sandford Fleming College of Applied Arts and Technology (Fleming College).

1. PURPOSE

- 1.1. The purpose of this agreement is to provide qualified graduates of Fleming College's Conservation Biology Diploma program with a seamless option for continuing their education in the Conservation Biology degree program at Trent University.

2. ROLES AND RESPONSIBILITIES

- 2.1. Student Supports
Trent's program faculty will support incoming students by providing them with relevant information related to their program.
- 2.2. Admissions
The Admissions Office at Trent University will be responsible for ensuring that eligible students will be awarded credit transfers as stated in said agreement.
- 2.3. Recruitment and Marketing
Recruitment and Marketing representatives at Trent University will be responsible for promoting the articulation pathway and recruiting students.
- 2.4. Students
Through communication with program faculty and orientation sessions, students will be advised to consult academic advisors to ensure they are successfully completing program requirements.

3. TERMS AND CONDITIONS OF THE AGREEMENT

- 3.1. Graduates of Fleming College's Conservation Biology Diploma will be granted 6.5 credits towards a 20.0 credit Bachelor of Science (Honours) in Conservation Biology at Trent University or a 20.0 credit Bachelor of Science (Honours) in Biology with optional Specialization in Conservation Biology.
- 3.2. Upon successful admission to Trent University, students are required to complete an additional 13.5 credits to meet degree requirements.
- 3.3. Students who have graduated from Fleming College's Conservation Biology Diploma, who commenced studies since Fall 2019, will be awarded the full 6.5 transfer credits provided they meet

admission requirements under Article 4 of this agreement. Students commencing studies prior to this term will be evaluated for transfer credits on a course-by-course basis.

4. ADMISSION REQUIREMENTS

- 4.1. To qualify for this agreement, students must have:
- successfully completed Fleming College’s Conservation Biology Diploma;
 - a minimum overall average of 75%.
- 4.2. Students must meet all specific admission and enrollment standards, and requirements for the program and will be accepted subject to capacity if applicable.
- 4.3. Admission to the Bachelor of Science (Honours) in Conservation Biology is competitive. As a result, meeting the terms of this agreement does not guarantee admission to the program. Students meeting the terms of this agreement who do not gain entry to Conservation Biology are eligible to pursue a Bachelor of Science (Honours) in Biology. Students completing the Bachelor of Science (Honours) in Biology have the option to apply to the Specialization in Conservation Biology.
- 4.4. Students who do not gain entry to the Conservation Biology program will receive an alternate offer to the Bachelor of Science (Honours) in Biology. These students may complete an internal application to Conservation Biology in their second semester at Trent to be reconsidered for the program, provided they meet the terms outlined in Article 6.5. Applications will be considered at the end of a student’s second semester, following the receipt of final Trent University Year 1 grades. Trent University will reserve five spaces each year for graduates of Fleming College’s Conservation Biology program who, upon meeting the minimum admission requirements, apply internally to the Conservation Biology degree program. Students who are not granted admission to the Conservation Biology program can continue their studies in the Bachelor of Science (Honours) in Biology with the option to apply for the Specialization in Conservation Biology.

5. TRANSFER OF CREDITS

- 5.1. Students who are eligible, graduating from Fleming College’s Conservation Biology Diploma program with a minimum average of 75%, will be granted 6.5 credits towards the successful completion of a 20.0 credit Bachelor of Science (Honours) in Conservation Biology or a Bachelor of Science (Honours) in Biology at Trent University. Credits will be transferred as follows:

Courses completed at Fleming College	Course equivalencies at Trent University	Credits received
ECOS 13 – Ecosystem Skills (60 hours)	BIOL 1020H – Foundations of Biodiversity	0.5
SCIE 177 – Biodiversity of Invertebrates (60 hours)	BIOL 2110H – Biology of Invertebrates	0.5
FIWI 63 – Biodiversity of Vertebrates (60 hours)	BIOL 2100H – Biology of Vertebrates	0.5
SCIE 62 – Introductory Chemistry (45 hours)	CHEM 1000H – Introductory Chemistry I	0.5
ENVR 20 – Ecology and Environment (60 hours)	ERSC 1010H – Environmental Science and Sustainability	0.5
MATH 25 – Statistics (45 hours)	GEOG-BIOL-ERSC 2080H – Natural Science Statistics	0.5

GEOM 34 – Introduction to Vector GIS (45 hours) GEOL 83 – Earth and Atmosphere (45 hours) GEOM 163 – Fundamentals of Geomatics (45 hours)	GEOG-ERSC 2090H – Introduction to Geographical Information Systems 0.5 unassigned Science credit at the 2000 level	1.0
GNED 49 – Introduction to Indigenous Studies (45 hours)	INDG 1001H – Foundation for Reconciliation	0.5
COMM 201 – Communications I (45 hours)	WRIT 1001H – Write in Time	0.5
COMM 202 – Communications II (45 hours)	WRIT 2002H – Write It Up: Effective Communication	0.5
LAWS 56 – Natural Resources Law (30 hours)	0.5 unassigned Environmental and Resource Science credit at the 2000 level	0.5
Completion of all other program components	0.5 unassigned Science credit at the 1000 level	0.5

5.2. As these credits recognize areas covered in Fleming College’s Conservation Biology Diploma program rather than the completion of Trent University courses, numerical grades will not be recorded on the Trent transcript. Completion of these credits will be recognized with a pass grade.

6. PROGRAM AND GRADUATION REQUIREMENTS

6.1. Upon admission to the Bachelor of Science (Honours) at Trent, students must satisfy all general education, graduation and major requirements as outlined in the University’s undergraduate calendar. If a student does not have the foundation or skills to enroll in an upper level course because of a lack of the appropriate introductory course(s), any necessary prerequisite course(s) will be required.

6.2. If a student transfers to a different degree program, all transfer credits outlined in this agreement may not apply to the new degree program. It is the student’s responsibility to consult an academic advisor, and to notify the Registrar’s Office of any program changes.

6.3. To satisfy the requirements of Trent’s Bachelor of Science (Honours) in Conservation Biology, students will need to complete specific courses to meet program requirements in addition to the courses they have already been granted from Fleming College. Program requirements are subject to change annually and the Academic Calendar should be consulted for all degree requirements and regulations. www.trentu.ca/calendar.

General University Requirements		
A minimum of 14.0 science credits, including at least 1.0 MATH credit	3.5 assigned through transfer credit	Fulfilled through program requirements
A minimum of 7.0 credits at the 3000 or 4000 level	---	Fulfilled through program requirements
A minimum of 3.0 credits with a grade of 60% leading to majors in different disciplines	Fulfilled through transfer credit	---
Maximum of 7.0 credits at the 1000 level	3.0 assigned through transfer credit	3.0 required above; Maximum 1.0 additional permitted
Minimum of 0.5 credit from the Approved Indigenous Course List	INDG 1001H	---

6.4. Completion of required courses will vary on an individual basis based on the flexibility and course options within the Bachelor of Science (Honours) degree and specific program chosen. Students must achieve the following to fulfill Trent University degree requirements:

- i. A maximum of 7.0 credits at the 1000 level can count towards the degree;
- ii. A maximum of 1.0 credit with a D grade (50-59%) in courses in a major or each joint-major or minor;
- iii. At least 0.5 credit from the Approved Indigenous Course List;
- iv. 7.0 credits completed at the 3000 or 4000 level through both program requirements and general elective options;
- v. An overall minimum average of 65% in Trent University courses to obtain an Honours degree;
- vi. The maximum credits in a discipline that can count towards the degree is 13.0 (Honours degree);
- vii. A minimum of 14.0 science credits (including 1.0 Math credit).

6.5. Students receiving an alternate offer to the Bachelor of Science (Honours) in Biology may apply to enter the Conservation Biology program at the end of their second semester at Trent if they have successfully completed the following courses with a minimum cumulative average of 75%: BIOL 1030H, BIOL-PHYS 1060H, CHEM 1010H, ERSC 1020H, and either MATH 1051H and 1052H or MATH

1005H and 1550H. Students may apply to enter the Conservation Biology program Co-op program at the end of their second semester at Trent if they have completed the indicated courses above (Section 6.5) with a minimum cumulative average of 80%. BIOL 1020H, CHEM 1000H and ERSC 1010H are also required, however because these courses are received as transfer credit, they will not be counted toward the cumulative average. Students not gaining entrance to the Conservation Biology program can continue their studies in the Bachelor of Science (Honours) in Biology with the option to apply to the Specialization in Conservation Biology without extending their studies.

6.6. To remain in the Conservation Biology program, students must maintain a minimum average of 75% in all Biology and Conservation Biology courses completed. Students who are unable to achieve these grades may switch to the Honours program in Biology, transfer to a Bachelor of Science or Bachelor of Arts program in another discipline and make up any degree requirements for the major, or repeat courses (subject to Trent University's policy on repeating courses) until they achieve the grades required to apply for readmission to the program. To remain in the Conservation Biology Co-op program, students must maintain a minimum average of 80% in all Biology and Conservation Biology courses completed. Students who are unable to achieve these grades may switch to the Honours program in Conservation Biology or the Honours program in Biology, transfer to a Bachelor of Science or Bachelor of Arts program in another discipline and make up any degree requirements for a major, or repeat courses (subject to Trent University's policy on repeating courses) until they achieve the required grades to apply for readmission to the program.

6.7. Three non-credit co-op work terms are required for the Conservation Biology Co-op program that are not included in the requirement chart above (BIOC 2700P, 2700P, and 4700P). Work terms will normally occur in the Summer term following the second year, the Winter term of the third year, and the Fall term of the fourth year. At the end of each co-op work term, a report will be required.

Note: It is recommended that students transferring into the Bachelor of Science (Honours) in Conservation Biology meet with an Academic Advisor at Trent University prior to completing any course selections.

7. IMPLEMENTATION AND REVIEW

This agreement is subject to review whenever either party makes curricular changes that impact the agreement. When a change occurs, the program departments will notify their respective articulation designates so that the agreement can be updated. Articulation designates at each institution will review the agreement annually to ensure it is current. This Agreement may be terminated by either party. In this case, notice of one year is required. In the event of termination of the Agreement, every effort will be made to ensure that students currently enrolled in the program will not be affected.

8. ACCEPTANCE OF AGREEMENT

We, the undersigned, as the representatives of Trent University and Fleming College hereby demonstrate our commitment to full implementation of the Agreement.

ADDENDUM
 TO THE
ARTICULATION AGREEMENT #5649
 BETWEEN
SIR STANDFORD FLEMING COLLEGE OF APPLIED ARTS AND TECHNOLOGY’S
ONTARIO COLLEGE DIPLOMA IN CONSERVATION BIOLOGY
 AND
TRENT UNIVERSITY’S
BACHELOR OF SCIENCE (HONS), CONSERVATION BIOLOGY AND BACHELOR OF SCIENCE
(HONS), CONSERVATION BIOLOGY CO-OP

This Addendum recognizes the changes outlined below, which shall become effective as of the Fall 2022 intake at Trent University. These changes will remain effective until the above-mentioned Agreement expires or until a new agreement is entered into, whichever occurs first.

The following changes have occurred:

The following courses have been added to the degree requirements in Conservation Biology degree and Conservation Biology Co-op degree program:

- BIOL 4410H – Urban Ecology
- BIOL 4500H – Population Dynamics
- ERSC-GEOG 3010H – Fundamentals of Geographical Information Systems Analysis (Sc)
- GEOG-ERSC 3020H – Remote Sensing of the Environment
- ERST 3110H – Environmental Impact Assessment
- ERSC-BIOL 3260H – Applied Biomonitoring
- ERSC-GEOG-SAFS 3650H – Soil Management and Conservation

These changes specifically refer to Sections 6 of the Agreement.

BACHELOR OF SCIENCE (HONOURS), BIOLOGY WITH A SPECIALIZATION IN CONSERVATION BIOLOGY: TRANSFER CREDITS

Students graduating from the Fleming College’s Conservation Biology Diploma program with a minimum overall average of 75%, who are eligible, will be granted 6.5 credits toward the successful completion of a 20.0 credit Bachelor of Science (Honours) in Biology degree at Trent University. Credits will be transferred as follows:

Courses completed at Fleming College	Course equivalencies at Trent University	Credits received
ECOS 13 – Ecosystem Skills (60 hours)	BIOL 1020H – Foundations of Biodiversity	0.5
SCIE 177 – Biodiversity of Invertebrates (60	BIOL 2110H – Biology of Invertebrates	0.5
FIWI 63 – Biodiversity of Vertebrates (60 hours)	BIOL 2100H – Biology of Vertebrates	0.5
SCIE 62 – Introductory Chemistry (45 hours)	CHEM 1000H – Introductory Chemistry I	0.5
ENVR 20 – Ecology and Environment (60 hours)	ERSC 1010H – Environmental Science and Sustainability	0.5
MATH 25 – Statistics (45 hours)	GEOG-BIOL-ERSC 2080H – Natural Science Statistics	0.5

GEOM 34 – Introduction to Vector GIS (45 hours) GEOL 83 – Earth and Atmosphere (45 hours) GEOM 163 – Fundamentals of Geomatics (45	GEOG-ERSC 2090H – Introduction to Geographical Information Systems 0.5 unassigned Science credit at the 2000 level	1.0
GNED 49 – Introduction to Indigenous Studies (45	INDG 1001H – Foundation for Reconciliation	0.5
COMM 201 – Communications I (45 hours)	WRIT 1001H – Write in Time	0.5
COMM 202 – Communications II (45 hours)	WRIT 2002H – Write It Up: Effective Communication	0.5
LAWS 56 – Natural Resources Law (30 hours)	0.5 unassigned Environmental and Resource Science credit at the 2000 level	0.5
Completion of all other program components	0.5 unassigned Science credit at the 1000 level	0.5

April 2022
ADDENDUM
 TO THE
ARTICULATION AGREEMENT #5649
 BETWEEN
SIR STANDFORD FLEMING COLLEGE OF APPLIED ARTS AND TECHNOLOGY’S
ONTARIO COLLEGE DIPLOMA IN CONSERVATION BIOLOGY
 AND
TRENT UNIVERSITY’S
BACHELOR OF SCIENCE (HONS), CONSERVATION BIOLOGY AND BACHELOR OF SCIENCE
(HONS), CONSERVATION BIOLOGY CO-OP

This Addendum recognizes the changes outlined below, which shall become effective as of the Spring 2023 intake at Trent University. These changes will remain effective until the above-mentioned Agreement expires or until a new agreement is entered into, whichever occurs first.

The following change will occur in Fleming College’s Diploma in Conservation Biology starting in Fall 2022:

- GNED 49 – Introduction to Indigenous Studies (45 hours) will be replaced with INDG 49 – Introduction to Indigenous Studies (45 Hours)

These changes specifically refer to Section 5 of the Agreement.

BACHELOR OF SCIENCE (HONOURS), BIOLOGY WITH A SPECIALIZATION IN CONSERVATION BIOLOGY: TRANSFER CREDITS

Students graduating from the Fleming College’s Conservation Biology Diploma program with a minimum overall average of 75%, who are eligible, will be granted 6.5 credits toward the successful completion of a 20.0 credit Bachelor of Science (Honours) in Biology degree at Trent University. Credits will be transferred as follows:

Courses completed at Fleming College	Course equivalencies at Trent University	Credits received
ECOS 13 – Ecosystem Skills (60 hours)	BIOL 1020H – Foundations of Biodiversity	0.5
SCIE 177 – Biodiversity of Invertebrates (60)	BIOL 2110H – Biology of Invertebrates	0.5
FIWI 63 – Biodiversity of Vertebrates (60 hours)	BIOL 2100H – Biology of Vertebrates	0.5
SCIE 62 – Introductory Chemistry (45 hours)	CHEM 1000H – Introductory Chemistry I	0.5
ENVR 20 – Ecology and Environment (60 hours)	ERSC 1010H – Environmental Science and Sustainability	0.5
MATH 25 – Statistics (45 hours)	GEOG-BIOL-ERSC 2080H – Natural Science Statistics	0.5
GEOM 34 – Introduction to Vector GIS (45 hours) GEOL 83 – Earth and Atmosphere (45 hours) GEOM 163 – Fundamentals of Geomatics (45	GEOG-ERSC 2090H – Introduction to Geographical Information Systems 0.5 unassigned Science credit at the 2000 level	1.0
INDG 49 – Introduction to Indigenous Studies (45	INDG 1001H – Foundation for Reconciliation	0.5
COMM 201 – Communications I (45 hours)	WRIT 1001H – Write in Time	0.5
COMM 202 – Communications II (45 hours)	WRIT 2002H – Write It Up: Effective Communication	0.5

LAWS 56 – Natural Resources Law (30 hours)	0.5 unassigned Environmental and Resource Science credit at the 2000 level	0.5
Completion of all other program components	0.5 unassigned Science credit at the 1000 level	0.5

BACHELOR OF SCIENCE (HONOURS), BIOLOGY WITH A SPECIALIZATION IN CONSERVATION BIOLOGY: PROGRAM REQUIREMENTS

Conservation Biology		
Program Requirements	Courses Granted Through Transfer Equivalency	Courses Students Still Need to Take
1.0 BIOC credit consisting of BIOC 2010H and 4100H	---	BIOC 2010H and 4100H
