Attention: Tawny Flude, Team Lead, Coordinator, Articulation and Transfer Pathways

**Re: Suspension of the Ontario College Diploma in Geological Technician  
(Earth Resources Technician) (ONCAT #4906)**

Dear Ms. Flude,

I wish to inform you of recent program changes. Fleming is committed to promoting excellence in the development, design, delivery, and ongoing review of its academic programs. Upon examination of various factors, such as enrollment demographics and the financial sustainability of program delivery, several evidence-based decisions have been made and supported by the Board of Governors.

Fleming hereby notifies you that the **Ontario College Diploma in Geological Technician** is suspended effective September 2023. The final cohort was admitted into the program in September 2022, and their natural graduation date is June 2024.

As per the Implementation and Review sections of the Fleming to Trent and Trent to Fleming Agreements:

**Implementation and Review**

This Agreement is subject to review whenever either party makes curricular changes that impact the Agreement. When a change occurs, the program departments will notify their respective articulation designates so that the Agreement can be updated. Articulation designates at each institution will review the Agreement annually to ensure it is current. This Agreement may be terminated by either party. In this case, notice of one year is required. In the event of termination of the Agreement, every effort will be made to ensure that students currently enrolled in the program will not be affected.

We thank you for your supporting the Geological Technician program. If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Molly Westland".

Molly Westland, RN BScN MN  
Associate Vice President, Academic Operations
