

Ontario College Student Experience Survey

What is it?

An annual online survey for upper semester Ontario College students administered by OCAS. This survey asks questions about overall program and college experiences (**not** about specific courses, subjects or teachers) related to:

- A) Teaching & Learning Quality
- B) Program Related Skills & Knowledge
- C) Work-Integrated Learning
- D) Demographics

When is it?

Early February each year (January 29 – February 16, 2024)

Students who will finish their program **before** the Winter term will have the opportunity to participate earlier in the year – either in June or November.

How long is the survey?

The survey should take approximately 10 minutes to complete.

How can students participate?

Eligible upper semester students will receive a personalized survey link sent to their Fleming email from Institutional Research Office at Fleming College (info@email.ontariocolleges.ca)

Students can complete the online survey from any device. Program coordinators are encouraged to facilitate the use of class time for completing the survey, where possible.

Participating students should select their survey responses based on what best describes their experiences and how they feel.

Every student who completes the survey will be entered into a draw for a chance to win an incentive prize (for example, an Amazon.ca eGift Card).

Why should students participate?

The survey is an opportunity for students to provide important feedback about their experiences that will assist the college in enhancing programs and services. Individual survey responses are confidential and only aggregated data will be reported.

The goal of any type of survey promotion is to encourage feedback in an impartial manner, without inadvertently biasing the results.
