5. Guiding/Advising Others

This section describes the **assigned responsibility** of the position to guide or advise others (e.g. other employees, students). Focus on the actions taken (rather than the communication skills) that directly assist others in the performance of their work or skill development.

Though Support Staff cannot formally "supervise" others, there may be a requirement to guide others using the incumbent's job expertise. This is beyond being helpful and providing ad hoc advice. It must be an assigned responsibility and must assist or enable others to be able to complete their own tasks.

Check the box(es) that best describe the level of responsibility assigned to the position and provide an example(s) to support the selection, including the positions that the incumbent guides or advises.

Regular & Recurring	Occasional	Level	Example

6. Independence of Action

Please illustrate the type of independence or autonomy exercised in the position. Consideration is to be given to the degree of freedom and constraints that define the parameters in which the incumbent works.

What are the instructions that are typically required or provided at the beginning of a work assignment?

Regular and Recurring

Incumbents are trained on College policies and resources; however, the day-to-day activities of the position require that the incumbent probe deeply into student issues and concerns (often uncovering personal issues/challenges) so that (a) students feel heard and (b) students are coached into developing solutions aligned with their goals. This requires an art of listening, probing (towards comprehensive information gathering), and adapting, as all student situations are a unique combination of issues and aspirations. All of this work is done with minimal/no supervision, making the incumbents' role in enabling and retaining students significant.

This need to adapt based on assessment/probing, and managing situational risk is typical of the role.

The incumbent must have the ability to independently triage situations and recognize when to refer to specialist advisors or counsellors, with appropriate understanding of their own professional scope and liability.

What rules, procedures, past practices or guidelines are available to guide the incumbent?

Regular and Recurring

Staff manual/handbook

College policies and procedures particularly pertaining to Academic and Student Life

Resources from professional associations (CACUSS, NACADA)

How is work reviewed or verified (eg. Feedback from others, work processes, Supervisor)?

Regular and Recurring

The incumbent will meet regularly with their manager to talk about concerns, progress, effective practices, and suggestions for improvement. The incumbent will also maintain detailed accounts of all student interactions, including records of information provided to students, date(s) and means of contact (email, voicemail, appointment, etc.) as well recommended referrals, strategies, and academic options.

Administrative work where deadlines are clearly communicated in advance is completed independently within established procedures and work is reviewed by the supervisor in regular meetings and upon completion deadlines/milestones.

6. Independence of Action

Describe the type of decisions the incumbent will make in consultation with someone else other than the Supervisor?

Regular and Recurring

Consultations with other functional departments within the College dealing with issues relating to student success or academic progression (credits, academic/immigration status, equivalency etc.), such as the School and International Office.

Consultation on retention issues, trends and analysis with program coordinators, chair, and manager.

Complex cases (e.g., where multiple sources are experiencing concerning contact with a student) would be case managed in consultation with program coordinators, chair, and manager.

Describe the type of decisions that would be decided in consultation with the Supervisor.

Regular and Recurring

The incumbent consults with their manager for planning activities, programs, and services; however, the incumbent is then the lead in materials, communications, and event details, including educational information for students' holistic success as they transition in, through, and beyond – as per the communication plan. However, the Incumbent will also need to develop additional communications (in concert with the manager) outside of the standard plan and judgement is needed to ensure consistency, but also to respond to specific student needs.

Incumbent is expected to consult with their manager when scheduling or workload conflicts arise affecting project deadlines or outcomes.

Situations so unusual as to be outside past precedents or guidelines, as well as sensitive matters will be discussed with the Manager.

Describe the type of decisions that would be decided by the incumbent.

Regular and Recurring

When a student seeks advice, the incumbent must determine, through asking gently probing questions, and listening intently to the student, what the core issues are, and must research options and then make independent recommendations on appropriate courses of action. Recommendations will impact student's success, both academically and emotionally and follow-up with the student is necessary to determine effectiveness of actions, or to make additional recommendations or referrals.

If a student is considering withdrawing from classes and approaches their Coach for assistance, the Coach must listen intently to the student's concerns, and present appropriate courses of action and refer as necessary to other resources.

Referrals to specialist areas (counselling, learning strategists, etc.) are done independently.

Independent action occurs when revising content delivery to meet student needs.

Position determines when to contact students at-risk, those doing well, or those in the middle (population will be organized into thirds).

7. Service Delivery

This section looks at the service relationship that is an assigned requirement of the position. It considers the required manner in which the position delivers service to customers. It is not intended to examine the incumbent's interpersonal relationship with those customers and the normal anticipation of what customers want and then supplying it efficiently. It considers how the request for service is received and the degree to which the position is required to design and fulfil the service requirement. A "customer" is defined in the broadest sense as a person or groups of people and can be internal or external to the College.

In the table below, list the key service(s) and its associated customers. Describe how the request for service is received by the incumbent, how the service is carried out and the frequency.
