## Students Get a Course Feed of their Achievements

- You can add more questions to activities, put more than one game in a course and students can play as many times as they want.
- Or games could be loaded to program pages for broader access
- Also publishes a grade item that can be worth marks (or not)

### Tricky Bits:

- Testing the game out/publishing and republishing. (links break etc)
- Managing Activities (organizing them in Admin tool)
- Creating course home page widgets and keeping up to date.

### To Get Started:

- Request a GBL Admin Tool account from [LDSTeam@flemingcollege.ca](mailto:LDSTeam@flemingcollege.ca)
- Attend follow-up training for the Tool (To be announced, contact us for details)
- Think of ideas for your game!
