

Facilities Indoor Air Quality
Protocol
Fleming College

Employee reports a safety/IAQ concern to Supervisor or JHSC.

Supervisor addresses concern or requests additional assistance from H&S Department.
JHSC raise concerns during committee meeting and discuss corrective action.

H&S Department to assess and determine if IAQ testing is required.

H&S Department to coordinate IAQ testing completed by industry professional.

Results of IAQ testing posted and shared with all parties.

IAQ results are reviewed and any remedial work recommended is completed.

Regular air quality monitoring to ensure occupant comfort and all safety thresholds.
